Report on the Plantation Programme Organized by Women Cell

Date: 30-07-2024

Venue: Kherajkhat College Campus

A plantation programme was organized by the Women Cell of Kherajkhat College on 30-9-2024 in the college campus. The event was graced by the Principal, Women Cell President, Coordinator, teachers, and students. The main aim of the programme was to promote environmental awareness and encourage students to take part in tree plantation for a greener and healthier future.

Objectives

1. To create awareness among students about the importance of trees and environmental conservation.
2. To encourage active participation in maintaining ecological balance.
3. To develop a sense of social responsibility and love for nature among students.
4. To make the campus eco-friendly and green.

The programme began with a short inaugural session where the Principal addressed the gathering and highlighted the importance of planting trees in combating climate change. The Women Cell President motivated the students to take responsibility for nurturing the plants. The Coordinator of the Women Cell guided the participants about plantation methods and maintenance.

After the speeches, plants of various species such as neem, guava, mango, and ornamental plants were planted in different parts of the college campus. Both teachers and students enthusiastically participated in the activity, making it a successful event.

Conclusion:

The plantation programme organized by the Women Cell was a grand success. It not only beautified the college campus but also instilled a sense of environmental responsibility among the participants. The initiative served as a reminder that collective efforts can bring significant positive change towards a sustainable future.

The meeting ended with a vote of thanks offered by the co-ordinator, students and all members for their valuable presence followed by light refreshment.
